Welcome

Thank you for your interest in *Starfish* where we grow lives and knowledge by providing nourishment, academic education, Bibles and humanitarian aid for the urban poor in the Philippines.

Starfish is a channel, to enable New Zealand & International partners to pray for, communicate with, and financially support families, students, and adults through tailored scholarships and family aid.

These are our very clear points of difference from similar organisations –

They are, that we:

- ✓ Partner with trusted churches
- ✓ Personally, interact with our Filipino partners
- ✓ Apply 100% of all donations to their specified purpose
- ✓ Provide specific spiritual support and daily needs, where required
- ✓ Involve local churches in decisions that are made concerning their ministries and our involvement

Included in this booklet are all the details you need to understand everything about our ministry, what we do, and how you can become a partner with us.

We want to see those we assist growing & serving in their spiritual walk and sharing with others both the gospel and what God has given to them after being involved in our scholarship programme.

Will you consider

*Starting with us....
.... to complete their journey?*

Our Story

The formation of *Starfish Ministries New Zealand* really began with a seed planted in the life of one man back in 1993 on a short-term mission to the Philippines. The seed continued to lie dormant until 2005 when it was ‘watered’ on a second trip.

This happened again in 2008 but with further ‘watering’, the ministry sprang into life.

Two others joined the first and together they began a work that was God’s plan right from the start.

Why the name, you might ask. Well, it was because it was by reaching out to one then to another, making a difference for them and sharing God’s love with them that helped them both physically and spiritually.

Here are their stories – No.1

Aldrin, in Quezon City, was a worship leader but had severely damaged his arm in an accident. He could not participate as a guitarist in the church worship ministry. *Starfish* arranged a donor, and his arm was operated on, and his deformity rectified. This freed him to commence serving with his guitar again.

No.2

The second, was little Dhave, 4 mths old, an orphan with the severe disability of a cleft palate and hairline lip with little chance of being chosen by adoptive parents ahead of other healthier, nicer looking babies. *Starfish* arranged for the first of two corrective operations at 7 mths of age. A changed little boy was shortly after adopted by Christian parents - an answer to our prayers.

We are sure that you will have heard the story that became the concept of the ministry. It was

The Starfish Story

One day, a man was walking along a beach, covered by many starfish. As he walked, he picked one of them up and threw it back into the sea. He repeated this, many times.

Another man walked toward him and said, "There's so many of them, you won't make much of a difference."

The first man responded as he threw yet another into the water, "well I made a difference for that one!"

That story, folks, captures the essence of what God had called us to do, both then and in the years ahead - and so

Starfish Ministries New Zealand began.

Celebrations!

We celebrated our 10th anniversary in 2018 and recognised that God has guided us to a place far different to where we expected. We no longer had two starfish but over 40 and that number is still growing – each with their own life story and each growing together with God.

**So, our vision and operation was
initially described as...**

**but is now seen as something far greater
and so, we are now known as....**

Our Vision

*Empowering the significantly poor Filipinos
to strive for

NOURISHMENT, KNOWLEDGE & WISDOM*

The Mission

**The Mission we will undertake
to achieve our Vision**

Encourage Christians to partner with us

to

Empower those who have significant need
to help themselves

and yet

Assist with what is needed to completely
fulfil the vision.

Our Programmes

Education & Wellbeing Scholarships

In the Philippines, the Government pays the basic School fees of students, but if the family cannot meet additional fees such as subject fees, project costs, stationery, uniforms, transportation, and meals the students cannot go to school.

At *Starfish* we believe that as many students as possible should be able to receive an education.

Of course, it is not possible to reach out to everyone, but the difference in the lives we have reached is very evident. So it is, that our programme provides education from the commencement of Primary School (Elementary Grade 1 – Age 6yrs) right through to the end of a Student’s University (College) education.

As part of this scholarship programme, *Starfish* has also scheduled a Teen Bible Camp, annually for five years, which complements the spiritual teaching the local church provides. In addition, a more in-depth Bible Discipleship Camp is included from Grade 12 (second year of Senior High School) for five years. It is this latter programme that sees the students beginning to engage in spiritual leadership of varying sorts in the churches. This is a fantastic culmination to the whole programme seeing scholarship students graduate from College and to graduate from the Christian Training Camp programme. It gives true meaning to our desire for you to

*“Start with us...
...to complete their journey”*

We are also able to provide regular dental and as needed medical care for our students – this is something the students have not had and yet really need.

For Our Supporters

We provide an introduction pack which includes a profile of the Student, & their family, and a framed photo of your student.

Our network of local Filipino coordinators arrange regular letters and other casual updates as they are available, enabling you to support them through prayer also.

We encourage our NZ supporters to provide a household photo and communicate with their students through *Starfish* this ensures that privacy is protected. These communications are facilitated by our own New Zealand associates – they are very happy to answer any questions you have about the programme or about their student families.

Over and above this we really encourage our supporting partners to come with us to visit their students at their home.

The beauty of our scholarship programme is, that your investment in the life of your student remains static for the school life of the student and includes a full complement of essential support to **Grow their life, knowledge, and wisdom**. They are wonderfully supported by their home church and integrate with their peers at our partner churches.

Your support donation can be made monthly at only \$40.00 a month or annually at \$480.00.

**This means that you can provide academic education,
spiritual development, health & wellbeing for only
\$9.25 a week**

Humanitarian Aid

Any tropical country is regularly subjected to significant weather extremes and resultant structure damage to the typical homes. The people also endure chronic illnesses and physical/emotional hardship. Many don't have work or don't have sufficient money to feed their families.

Then there are things like pandemics that have struck the world and are accentuated in poorer countries due to high population, over crowding and substandard living conditions. The partnering churches and the associated families of *Starfish* in the Philippines have been hit hard in recent times and sadly these things will recur repeatedly.

We have a fantastic opportunity to share some of the blessings we have received with those who have such a great need. We always have food and great shelter and yet our Filipino friends often go without not only one meal but sometimes several meals in a week.

Occasionally, they also need medical assistance or prescription medications that they struggle to afford. We can help by providing that opportunity to regain better health.

There are many needs and yet for us, many opportunities to lift up our fellow believers by donating as much and as often as we can.

Bible A Month Programme

The *Starfish* 'Bible A Month' programme provides Bibles for all of our ministry outlets.

We are currently supporting a Church in Northern Mindanao as they share in a Government Drug Rehabilitation Scheme for traffickers & users. The church has been asked to share the gospel and disciple these, often hardened addicts. As part of the programme the coordinators also provide bibles in the local language – that's where we come in. Our last support provided for 700 of these contacts. What a wonderful opportunity to get God's word into the hands of so many who need the gospel, Salvation, a hope and a surety of all that God offers.

All of our students, mothers & church members receive bibles of their own. In the past they have had to rely on the bibles held at the church and just read them from week to week.

You can share in this important work for a Donation of just \$10.00 a month.
